

## Biotin Donkey Anti-Human IgG Fcy

|                           |               |
|---------------------------|---------------|
| <b>Catalog Number:</b>    | 305001        |
| <b>Size:</b>              | 100 uL        |
| <b>Target Name:</b>       | Human IgG Fcy |
| <b>Regulatory Status:</b> | RUO           |

### PRODUCT DETAILS

|                               |                                                                                                                                                                             |
|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Clone:</b>                 | Poly001                                                                                                                                                                     |
| <b>Application:</b>           | ELISA, WB                                                                                                                                                                   |
| <b>Reactivity:</b>            | Human IgG Fc&gamma;                                                                                                                                                         |
| <b>Format:</b>                | Biotin                                                                                                                                                                      |
| <b>Isotype:</b>               | Donkey IgG                                                                                                                                                                  |
| <b>Antibody Type:</b>         | Polyclonal                                                                                                                                                                  |
| <b>Formulation:</b>           | Phosphate-buffered solution, pH 7.4, with stabilizer                                                                                                                        |
| <b>Protein Concentration:</b> | Supplied at a lot-specific concentration.                                                                                                                                   |
| <b>Storage and Handling:</b>  | Store the antibody undiluted at 2°C to 8°C.                                                                                                                                 |
| <b>Recommended Usage:</b>     | For ELISA application, it can be used at 1:20,000 to 1:100,000 dilution. However, optimization by titration is suggested for best performance in each specific application. |
| <b>RRID:</b>                  | AB_3739268                                                                                                                                                                  |

### BACKGROUND INFORMATION

---

Minimum cross reactivity to bovine, horse, mouse serum proteins
